

MAKING SPACES BETTER

Furniture Ranges & Circular Economy services that change lives.

FURNITURE THAT CHANGES LIVES

RAW furniture ranges and circular economy services are a showcase of untapped talent and potential from the most unexpected places. They empower our clients and customers to make confident procurement choices that deliver measurable social impact.

By choosing **RAW** our clients not only access high-quality UK made furniture, they are also supporting our mission to create life-changing opportunities for people who've done the hard yards. They are also helping us divert young people away from having to walk those hard yards at all.

We create better spaces for clients and, together, create better lives for humans.

Why

In 2016 we set out to prove that people, no matter their life path, have the power to become exceptional. Today, over 75% of our amazing workforce have fought, and won, in the face of life's toughest challenges.

From addiction to mental health issues and from criminality to neurodiversity challenges, our crew have found ways to overcome. That human resilience and passion shines through in the quality of our products and services.

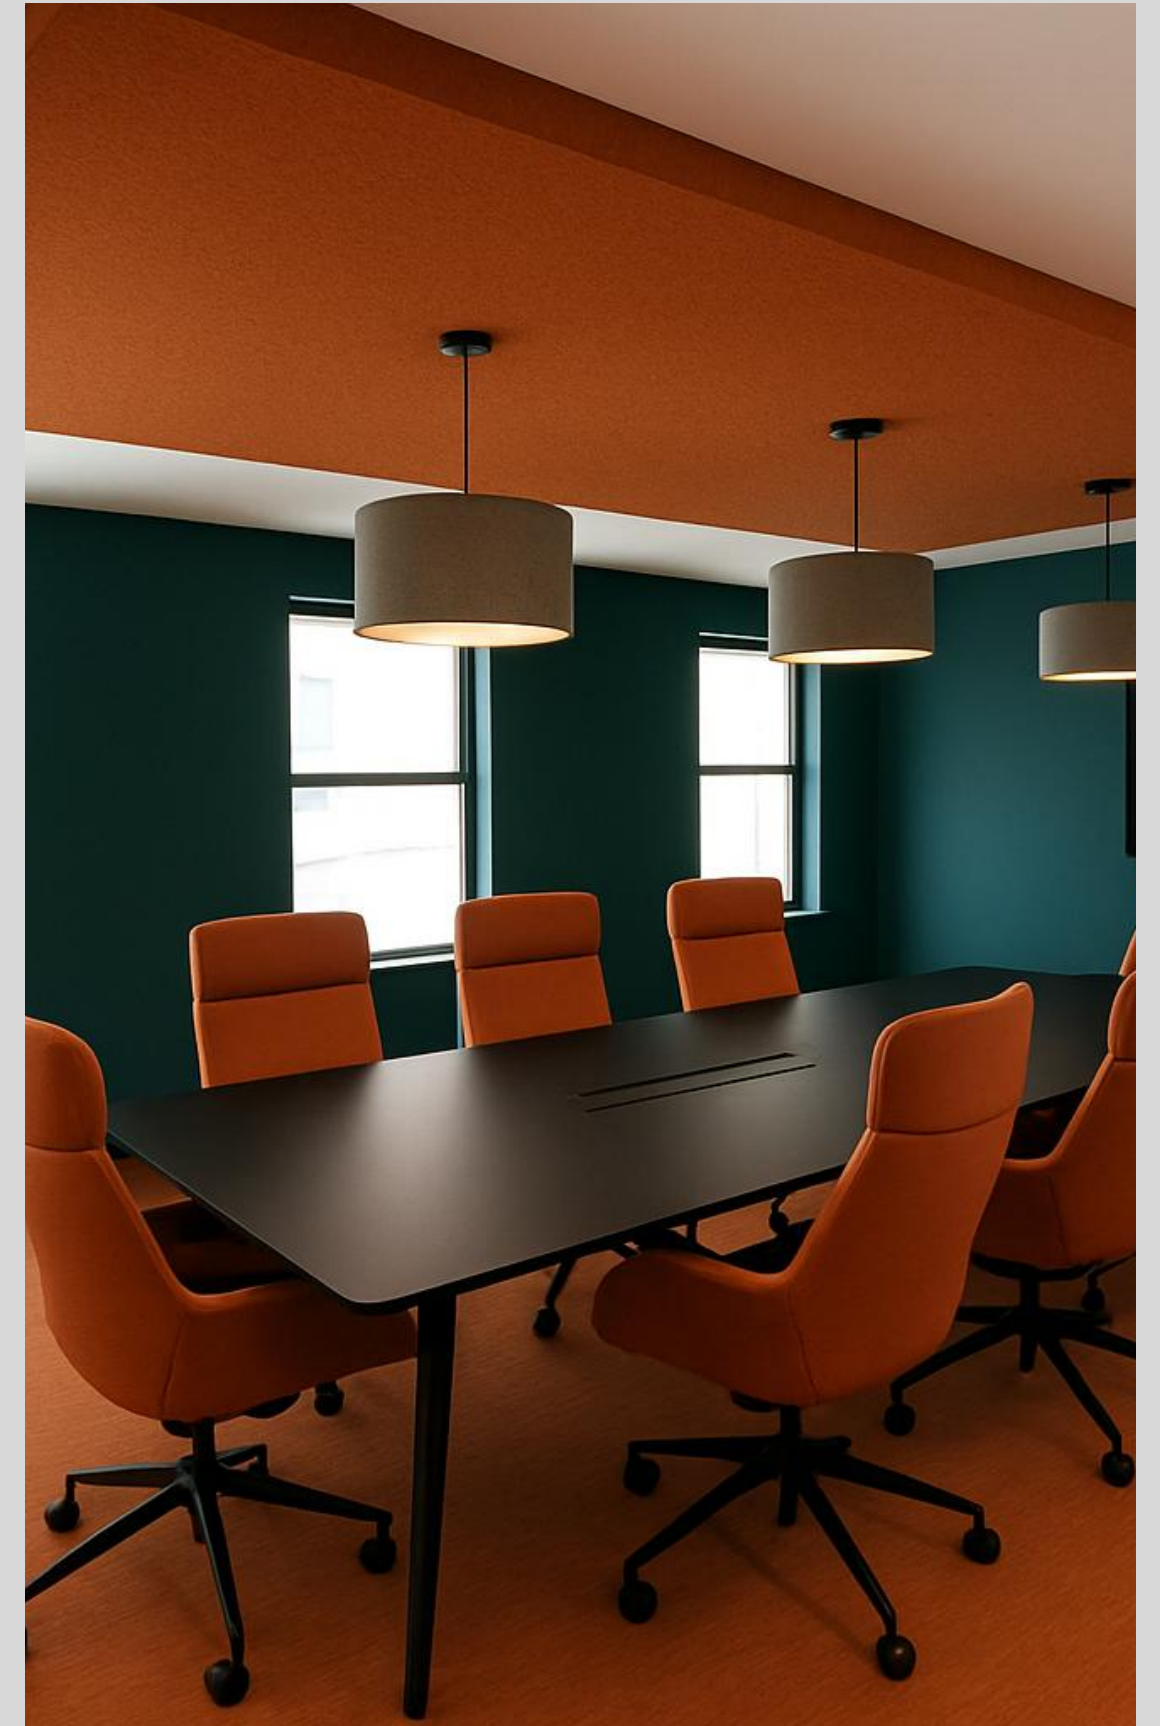

As well as being a place where people can build rewarding careers and be part of our tribe, in 2019 we also set up RAW Potential, our youth focused service. Now working with over 100 young people who are facing challenges, we help them build better futures.

Mission

We make our point through the quality of our products and services. We don't trade on 'goodwill' or sympathy. We trade on providing market leading products and excellent services made by exceptional people..

For clients who want social value built into their furniture supply chain, with no compromises, RAW offers a unique solution in the market.

As colourful as our crew

At RAW, colour runs deep. It reflects our people — bold, resilient, and unapologetically real.

Many of us have faced life's tougher edges. But we bring that grit into everything we make. Every finish speaks of second chances. Every tone, a story of strength.

This isn't just colour - it's character.

Douglas

Solo / XL

Stay sharp, stay moving, stay **RAW**. The Hi-Lo desk keeps you on top of your game—whether you're sitting back to ponder or standing tall to power through. With smooth electric height adjustment, your posture picks the setting, and the desk does the rest.

Fly Solo with the Single, team up with the XL, or plug into possibility with the power-packed H Bar. Built tough, finished your way—choose from a range of bold colours and textures that reflect your space, your mood, your mission.

At **RAW**, function doesn't come without flavour.

Roxy

Solo / XL

Where industrial strength meets real-world flexibility, Roxy is our no-nonsense table system that won't cost the earth—literally or financially.

Light on impact, heavy on purpose, Roxy is easy to configure, easy to install, and built to handle whatever your space throws at it. From education to commercial to healthcare, it's the smart, adaptable choice for those who want to do more—with less.

Robust and durable. Unmistakably RAW.

Rufus

Natural timber meets bold colours.

Tough, flexible, and built to get the job done, Rufus is our heavyweight table system for spaces that demand more. With a smart telescopic beam at its core, it adapts fast—shifting effortlessly between bold boardrooms, collaborative hubs, and laid-back breakout zones.

Chunky solid oak legs don't just talk the talk—they bring serious strength and a striking industrial edge. Whether you're building out a single showstopper or a multi-top setup that means business, Rufus is up for it.

Versatile. Unshakable. Unapologetically RAW.

Leo

LEO adapts with intent.

As workspaces become more fluid, so does the need for smarter collaboration. The RAW Leo was built for this shift - supporting smaller team huddles, continuous table runs, and a range of working heights with quiet confidence.

At its core, Leo is a flexible canvas. The signature overhead canopy, true to Leo’s original silhouette - bringing function and form together, supporting biophilic accessories and creating a semi-enclosed setting that encourages focus, connection, and calm.

Grounded. Striking. Unapologetically RAW.

Kati

Ready for anything.

Built for every space that demands more than just good looks, the Kati Bistro Table Collection delivers versatility with serious attitude. Available in coffee, dining, and poseur heights, Kati stands tall on a tough tubular steel column.

With multiple shaped bases, Kati doesn't just fit in, it owns the room. Whether it's a quick coffee catch-up, a working lunch, or a sharp looking meeting zone. Kati brings form, function, and just the right amount of blah blah to get the job done.

Adaptable. Striking. Unapologetically RAW.

Freya

Solid and dependable. Built to last.

Designed from the ground up to deal with tough, high traffic environments. Made using FSC-certified 40mm MFC, its minimal design lends itself to a wide range of environments.

Seen in University accommodation, breakout rooms and as a large communal table in a hospitality venues, the Freya covers many bases. Designed and manufactured in the UK with RAW's signature industrial grit, it's made for high traffic environments to give you peace of mind whilst really looking the part.

Sturdy. Minimal. Unapologetically RAW.

Oscar

Stripped-back. Stacked with attitude.

This is RAW’s no-fuss table and bench set — built for real-world utility with an edge. Made entirely from FSC-certified birch plywood, it’s a monolithic statement piece with clean lines and serious presence. Chunky profiles, bold proportions, and zero compromise on strength or style.

Whether it’s holding court in a breakout space, lining a hospitality hall, or anchoring an office hub, this set doesn’t just sit pretty — it works hard. Designed and manufactured in the UK with RAW’s signature industrial grit.

Modular. Minimal. Unapologetically RAW.
